
F
w
directional derivative in w direction
v
directional derivative in v direction
[v, w]
vector field [v, w] is defined to be the vector field such that the directional derivative of F in the direction [v, w] is the same as v[w[F]] − w[v[F]]
w[F]
v
directional derivative in v direction
v[F]
w
directional derivative in w direction
v[w[F]]
w[v[F]]
v[w[F]] − w[v[F]] = [v, w]F
